Turner, Robert, PFC, US55089473 made the following statement concerning
Noel, Frank during Turner's interrogation on
11 August 1953.

Noel, Associated Press reporter, had his own photo equipment and took many motion pictures of PsW at sporting events. These pictures were censored by camp officials and Noel was allowed to send many of them back to the US. He traveled from one PsW camp to another and took pictures wherever he went. He lived outside the camp area and seemed to receive better treatment than other PsW in the camp. SUBJECT believes that the Chinese allowed Noel's pictures to be sent outside of Korea for propaganda purposes.

Sampson Air Force Base
Geneva, New York
27 November 1953

NY - Korea

I, Roger Warren, 1st Lt., AO 2 223 184, hereby state that Michael Navarro has identified himself to me as a Special Agent of the Office of Special Investigations, United States Air Force, and that I do hereby voluntarily and of my own free will make the following statement without having been subjected to any coercion, unlawful influence or unlawful inducement, and without any promise of reward, benefit, or any immunity having been made to me:

During the latter part of April 1953 and the first part of May 1953 at Pyoktong I observed Frank Noel, a civilian press photographer, who might have been receiving special privileges. I observed him rather frequently walking through town with a Chinaman whose name or status as a civilian or military person I never learned. At all times Noel carried a book with him. He was getting a pretty good tan in the late spring when I saw him last. On one occasion I saw him enter a small Korean home with the Chinaman. I presumed that Noel lived in this home with the Chinaman, for I was unable to tell that anyone else was staying there.

On one occasion in May 1953 a group of prisoners from Camp 5 were returning from a wood gathering detail. As they passed my room I noticed Frank Noel walking farther up the hill. One of the prisoners from the detail called, "Hi ya, Frank; are we going home next month?" Noel replied, "I don't know, but I'll go with you." These sentences were called over a distance of about 100 yards. They are the only oral statements I heard in connection with Frank Noel. I did not recognize any members of the detail.

Outside of the fact that I saw Noel rather frequently walking through town and up the hill and carrying at all times a book, I was unable to specifically determine that his treatment differed from that of other POWs. He had been able to retain an Army field jacket which he wore as outside clothing. Except for this, I believe his clothing was the same as all other prisoners.
